

New Velocity Carbon Whisker Poles

Forespar's new Velocity series whisker poles feature a more affordable two-piece telescoping carbon fiber construction. Strong and lightweight, it quickly adjusts to match the clew position of almost any jib, genoa or asymmetrical sail. Designed to maximize downwind sailing efficiency, these poles can be quickly deployed, adjusted and retracted as needed with the simple pull of a line.

Forespar offers a complete range of carbon or aluminum downwind poles including the adjustable length Twist Lock, Line Control and Tri-Reacher models.

New LED Deck and Deck/Steaming Lights

Forespar® has just introduced new LED light versions of their popular ML-1 deck light and ML-2 deck/steaming combination lights. Designed for installation on the mast just below the

Factory Telephone Numbers

spreaders, both new versions offer the light bulb durability and power usage benefits of LED lights inside the time-tested composite ML light housing.

Fixed Mount Mast Cars Eliminate The Extra Cost Of A Mast Track

For the cost minded customer who doesn't want to compromise downwind performance, suggest a Forespar fix mount mast car.

They offer a sturdy mounting point for downwind poles without the extra expense and hassle of installing mast track and car.
