New Self-Sealing SAFE-T-DRAIN PLUG™ Prevents Accidental Flooding

Safe-T-Drain Plug is a "plug & play" replacement for generic OEM drain plugs that will give your customers a safe, easy, and inexpensive solution to accidental flooding if they forget to install their drain plug caps when launching. Safe-T-Drain Plug automatically seals itself when the transom hits the water by using a removable flotation ball cartridge that floats up to seals the drain even if the plug cap is not in place. The flotation ball cartridge can also be easily removed for cleaning of the stainless catch screen by unthreading the drain assembly using the head of the plug cap. No tools needed.

Marelon® Smart Valves™ for 17 Seacocks

When Larry and Colleen Wertsch ordered their new 46 foot boat this past winter, they wanted the safety and convenience of knowing the position of each of their 17 seacock's at a glance. Forespar's composite Marelon Smart Valves were the perfect solution. Each of their new Smart Valve Seacocks is electronically linked to a custom light panel located at their nav station so they can instantly identify the current position of each seacock.

Brisk Sales of LanoCote[®] Prop & Bottom[™] Reported

As boats across the country go back in the water, brisk sales of our new, LanoCote Prop & Bottom Anti Fouling, have been reported by dealers across the country. A great solution for the environmentally conscience boater, LanoCote Prop & Bottom is naturally non-toxic coating that works well on either wet or dry surfaces. It can also be applied underwater, so it's not too late to push the sale of this product to your customers.

Packaging sizes include 16oz jars, 1 gallon buckets and 5 gallon buckets. We have also updated the packaging a bit based on dealer suggestions, so look for the new package soon as we continue to roll out this product.

Marine Dealers Seeing Benefits of MareLube[®] TEF45[™]

MareLube TEF 45 is impressing Marine dealers across the country. With its maximum available 45% Teflon[®] equivalent (PTFE) formula, it works great in wet, high-load applications and is also a great bi-metal anti-corrosion barrier. If you have a customer that needs the best high-load waterproof lubricant available, they need MareLube TEF45.

Available in 4oz jars, 6cc & 3cc syringe packs, 12 oz caulk gun or 8 & 40 lbs buckets.
