New Tri-Reacher™ Pole Offers Affordable Downwind Sail Control

Two new Forespar® products offer an affordable and easy-to-install downwind pole setup for your free-flying asymmetrical sail. With these new products, you will sail deeper angles with more control, and enjoy the fun of faster and safer downwind sailing. You can also save considerable fuel while cruising.

Our NEW Tri-Reacher™ pole (FSP #408200 UTS & #408201 UXP) is for anyone who wants to add a downwind pole but have hesitated because of the cost. It's a 3-part telescoping aluminum whisker pole that has been developed specifically for nylon asymmetrical sails only. It telescopes from 8 to 21 ft and can be used on boats up to 42ft LOA.

This new pole can be combined with the NEW Fixed Mounting Bracket (FSP # 333025 TS mount & #332025 FC mount) at the mast, or it can be use with a traditional movable mast car. The fixed Mast Bracket is mounted permanently to the mast with (10) ¼" fasteners to offer a simple fixed pole attachment point.

These new items are available for purchase separately, or as a package, which can save \$1,000s over traditional new pole installations.

New Electric Drive Leisure Furl™- Power Without Hydraulics

Enjoy push-button operation with the same Leisure Furl™ reliability and classic looks with the new Leisure Furl electric drive option. Available in two model sizes for boats 35-44ft, or 45-55ft, the new electric drive motor is 24-volts and housed in an O-ring sealed aluminum case fitted aft inside our current Leisure Furl mandrel system. The drive train terminates in a low-profile, winch handle-driven manual override in front, and locks using an electric brake and solid pin stop similar to the traditional Leisure Furl.

Internally geared, it's sealed from the elements and is cockpit controlled with an included waterproof electric panel and remote electric distribution module.

New Catalog Available

The new Forespar products catalog is now available with over 20 new products listed. We handed a lot of them at last weekend's Strictly Sail Pacific show and it was well received by show attendees.

To order a FREE printed copy, please go to <http://www.forespar.com/requestacatalog.shtml>
