

What is Marelon

Marelon[®] is a proprietary formulation of polymer composite compounds using engineered resins and additives to produce a superior marine-grade product.

Benefits to builders include:

- Light weight, yet extremely strong injection-molded parts
- Complete freedom from any corrosion
- Complete freedom from electrolysis or reaction to any metals
- Outstanding operating temperature range (-40deg. to +176deg. F.)
- Uses in deck hardware (cleats, chocks) and marine plumbing
- Outstanding U.V. resistance and color fix
- Marelon[®] valves offer an unprecedented variety of designs
- Marine U.L. approved and A.B.Y.C. accepted , ISO Certified
- Long term reliability

Benefits to the Boat Owner include:

- No bonding (electrical) required
- Configurations to fit tight machinery spaces
- Minimal maintenance requirements
- Ease of installation with standard tools
- Accepts adhesives and coatings (bottom paints) easily
- Can be used on aluminum, steel, wood or FRP hull forms
- Marine U.L. approved and A.B.Y.C. recognized , ISO Certified
- Excellent chemical resistance to harsh bilge cleaners
- Can be used with or on any metal fittings
- Long term reliability
