For Immediate Release

June 1st, 2011

MareLube Marine Lubricant For Marine Valves and Parts

Rancho Santa Margarita, CA - Forespar's new MareLube™ lubricant is specifically formulated for use on all marine valves and other marine parts including Marelon® composite valves and plumbing parts.

Made from long-lasting PTFE Teflon®-based lubricants, MareLube™ is formulated using advanced lubrication technology designed to keep marine valve seals and balls working smoothly. It also works well on winches, hinges, tracks and almost anything else that moves.

MareLube™ is a clean, non-staining and nontoxic lube and works equally well in fresh or salt water.

Available now, it promises to be a good addition to any boat's lubricant inventory.

Part #770050 - Suggested Retail \$9.95

Forespar® is one of the oldest, most established boat hardware manufactures in the United States. Their diverse line of marine products includes carbon fiber poles, Leisure Furl™ boom furling systems, Marelon® plumbing and numerous other marine related products.
