FORESPAR[®] NOW OFFERS MARELON[®] TAILPIPES TO FIT 1-1/8" BILGE PUMP HOSE

CF 252 1-1/8"

Marelon[®] tailpipes to fit 1-1/8" bilge pump hose

The new #905016 CF 252 1-1/8" tailpipe has standard 1" male threads and hose barbs for 1-1/8" hose. Now the OEM builder can plumb directly to our 1" Marelon[®] Integrated Plumbing System seacock (or any 1" female threaded valve) without the need of adaptors and reducers.

FORESPAR[®] fills the void in the 1-1/8" hose

equation with Marelon[®] barbed T-hulls (#906070), Vented Loops (#903009), "Y" Valves (#902008) and tailpipes to allow builders to fully comply with ABYC standards for bilge pump outlets at or below the waterline.
