MareLube™ TEF45 Maximum PTFE Lubricant **New Anti-Corrosion, Anti-Seize Lubricant Contains 45% PTFE**

[High-res Image Link](#)

[Caulk Tube High-res Image Link](#)

Rancho Santa Margarita, CA – MareLube TEF 45 is a state-of-the-art solution for lubrication and protection in extreme loading and corrosion conditions. A Forespar exclusive product, TEF45 is a highly water-resistant synthetic lubricant grease that contains 45% PTFE, which is the

highest percentage available.

TEF 45 uses a unique formulation of 45% PTFE sub-micron sized particles, advanced tackifiers and other high performance additives to provide complete waterproof integrity, a bi-metallic barrier and superior anti seize properties, perfect for the maritime industry. TEF 45 also works well at protecting against rust corrosion. TEF 45 is available in 8 lbs pails or 12 oz caulk tubes for larger industrial applications, as well as 4 oz or 16 oz jars and conveniently pre-loaded 30cc and 6cc syringe packs for precise applications where injection is needed.

Forespar® is one of the oldest, most established marine equipment manufacturers in the United States. Their diverse line of products includes Marelon® composite plumbing fittings, carbon fiber structures and aluminum tubing.

MareLube TEF45 is available in these different sizes:

Part #	Product Description
770170	MARELUBE TEF45 - 12oz Caulk Tube
770171	MARELUBE TEF45 - 8lbs Pail
770068	MARELUBE TEF 45 - 16oz EACH
