Eco Tank Pro™ Announces Launch of New Company & Website

Rancho Santa Margarita, CA. - August 3, 2015 - Eco Tank Pro www.ecotankpro.com, today announced the launch of its Orange County, Calif.-based Company and new website. Eco Tank Pro™ provides a no-mess portion control deodorizer and waste treatment that is simple to use and proven to be environmentally friendly. It eliminates unpleasant odors in powerboats or sailboats, RVs, and in the home within minutes, offering convenient and effective odor elimination for several weeks.

Eco Tank Pro products are environmentally friendly and designed for use in the home, RV, Camper, Auto or Truck, or in boats. Actively destroying odor molecules on contact, Eco Tank Pro offers the ultimate in convenience and performance for odor control. It destroys the lingering smell of smoke, mold and mildew, anywhere foul odors are present. Biweekly use of Eco Tank Pro™ also cleanses tanks by reducing surface and bottom solids in the holding tank and septic tank. .

“Eco Tank Pro® provides a powerful odor control with minimal effort,” said Esteban Wu. “Exceptional product development and research guarantees that our customers always receive the highest performing and most competitively priced products available,” Wu commented. “The website provides access to boaters, campers, or home owners looking for a solution to foul odors of any kind” Wu said.

The new Eco Tank Pro website design incorporates numerous features and functionality designed to set it apart from all competitors. Utilizing images along with shopping cart feature, clear and compelling copy, embedded SEO for fast searchability, customer testimonials, as well as product promotions, and News updates, the website provides the viewer with product information, pricing and built-in ordering tool.

About Eco Tank Pro:
