New Lanocote® Dispenser Spray

Lanocote® Rust and Corrosion Protection is Now Available in an Environmentally Safe Dispenser Bottle

Rancho Santa Margarita, CA - Forespar's natural solution for marine corrosion, Lanocote, just became even more environmentally safe now that it is available in a new 8 oz dispenser spray bottle. This new bottle replaces the traditional 7 oz aerosol can which contained harmful propellants.

Lanocote is a the safe and natural product that stops and prevents rust, oxidation and electrolysis. Available in this new aerosol-free dispenser bottle and a wipe-on paste, it is the perfect corrosion solution for environmentally sensitive marine locations. Formulated to withstand both fresh and salt water, Lanocote forms a long-lasting, non-greasy moisture barrier on all treated parts. It is effective on almost anything that is prone to corrosion including shackles, electric panels, valves, threads, outboards and fishing tackle.

Lanocote is manufactured and distributed by Forespar®, one of the oldest boat hardware manufacturers in the United States. Their diverse line of marine products includes carbon fiber poles, Leisure Furl™ boom furling systems, Marelon® plumbing fittings and numerous other marine related products.
