

# Material Safety Data Sheet

## LANOCOTE®

### I. PRODUCT IDENTIFICATION

|  |  |
|--|--|
| Manufacturer: Forespar Products Corp.                          | Telephone: 949-858-8820                                    |
| Address: 22322 Gilberto<br>Rancho Santa Margarita, CA<br>92688 | Chemical Name: Lanolin Fatty Acids<br>Trade Name: Lanocote |

### II. HAZARDOUS INGREDIENTS

| Chemical Name                   | CAS NUMBER | %  | Exposure Limit OSHA |
|---------------------------------|------------|----|---------------------|
| Aliphatic Petroleum Distillates | 8052-41-3  | 17 | 100 ppm PEL         |
| Lanolin                         | 8006-54-0  | 83 | ND                  |

### III. PHYSICAL DATA

|                           |                |                   |                     |
|---------------------------|----------------|-------------------|---------------------|
| Boiling Point:            | NA             | Evaporation Rate: | NA                  |
| Vapor Density (air=1):    | Greater than 1 | Vapor Pressure:   | NA                  |
| Solubility in Water:      | Insoluble      | Appearance:       | Light Amber         |
| Specific Gravity:         | NA             | Odor:             | Characteristic Odor |
| Percent Volatile (Volume) | 17             |                   |                     |

### IV. FIRE AND EXPLOSION

|                                     |   |
|-------------------------------------|---|
| Flash Point:                        | 408° F                                  |
| Flammable Limits:                   | NA                                      |
| Extinguishing Media:                | CO <sub>2</sub> , Dry Chemical Foam     |
| Special Fire Fighting Procedures:   | Wear self-contained breathing apparatus |
| Unusual Fire and Explosion Hazards: | None                                    |

### V. HEALTH HAZARD / ROUTE(S) OF ENTRY

|   |  |
|---|--|
| Threshold Limit Value<br>Aliphatic Petroleum Distillates lowest TLV ACGIH 100 ppm             |  |
| Symptoms of Overexposure<br>Inhalation (Breathing):   | May cause anesthesia, headache dizziness, nausea and upper respiratory irritation.                     |
| Skin Contact:   | May cause irritation.  |
| Eye Contact:  | May cause irritation, tearing and redness.   |
| Ingestion (Swallowed):  | May cause irritation, nausea, vomiting, and diarrhea.  |
| First Aid Emergency Procedures<br>Ingestion (Swallowed):                                      | Do not induce vomiting, seek medical attention.  |
| Eye Contact:  | Immediately flush eyes with large amounts of water.  |
| Skin Contact:   | Wash with soap and water.  |
| Inhalation (Breathing):   | Remove to fresh air. Give artificial respiration if necessary. If breathing is difficult, give oxygen. |
| Suspected Cancer Agent<br>Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> | The components in this mixture have been found to be noncarcinogenic by NTP, IARC and OSHA.            |

**VI. REACTIVITY DATA**

|                                   |                            |   |
|-----------------------------------|----------------------------|---|
| Conditions to avoid:              | NA                         |   |
| Incompatibility:                  | Strong oxidizing materials |   |
| Hazardous decomposition products: | None                       |   |
| Hazardous polymerization:         |                            | Will not occur: <input checked="" type="checkbox"/> |

**VII. SPILL OR LEAK PROCEDURES**

|  |  |
|--|--|
| <b>Spill Response Procedures</b>   |  |
| Leaking tubs or tubes should be placed in plastic bag or open pail until disposal. Lanocote becomes liquid above 90°F.   |  |
| <b>Waste Disposal Method</b>   |  |
| Cleanup with rags and combustible solvent. Liquid or grease should be burned in a chemical incinerator. Dispose of in accordance with local, state, and federal regulations. |  |

**VIII. SPECIAL HANDLING INFORMATION**

|                             |   |
|-----------------------------|---|
| Ventilation:                | Sufficient to keep solvent vapor less than TLV.   |
| Respiratory Protection:     | Advised when concentrations exceed TLV.   |
| Protective Gloves:          | Advised to prevent possible skin irritation.  |
| Eye Protection:             | Approved eye protection to safeguard against potential eye contact, irritation or injury. |
| Other Protective Equipment: | None required.  |

**IX. SPECIAL PRECAUTIONS**

|  |
|--|
| Keep from sources of ignition. Avoid excessive inhalation of spray particles, do not take internally. Do not puncture, incinerate or store container above 120°F. Exposure to heat may cause bursting.<br><u>Keep from children.</u> |
|--|

**X. TRANSPORTATION DATA**

|                         |                                |
|-------------------------|--------------------------------|
| <b>Domestic Surface</b> |                                |
| Description:            | Consumer Commodity             |
| Hazard Class:           | ORM-D                          |
| ID Number:              | None                           |
| Label Required:         | Consumer Commodity (ORM-D)     |
| <b>Domestic Air</b>     |                                |
| Description:            | Consumer Commodity             |
| Hazard Class:           | ORM-D                          |
| ID Number:              | None                           |
| Label Required:         | Consumer Commodity (ORM-D-AIR) |

**XI. REGULATORY INFORMATION**

|  |                  |
|--|------------------|
| All ingredients for this product are listed on the TSCA Inventory. |                  |
| SARA Title III chemicals:  | None             |
| California Prop 65 chemicals:                                      | None             |
| CERCLA reportable quantity:  | None             |
| RCRA hazardous waste number:                                       | D001 (Ignitable) |
