TECH
TIPS

SAILKOTE

A high-performance, dry-film lubricant that outperforms and lasts up to five times longer than other silicone, wax, Teflon, or petroleum lubricants. Unlike oils, silicones, and waxes, it will never attract dirt, water and contaminants that eventually degrade lubrication performance.

Easy to apply high-tech, high performance dry lubricant that makes sails, hulls, rigging, deck hardware, and anything that moves on your boat run smoother, work more efficiently and last longer. Reduces friction, abrasion, drag, and water absorption on all treated surfaces. Use on mast track, traveler cars and blocks to reduce friction, even under load.

Dries in seconds & bonds tightly to any surface. Use on sails to repel water and dirt. Use on hulls to reduce drag and waterline deposits

Use on:

Hatches and drawers
Sliding doors/windows at home as well as the boat!

#866014 6oz spray
