

CHROME HEAD T-HULLS

Forespar® now offers optional “Chrome” heads on our “93” series mushroom style Marelon® thru-hulls. There are no stamped stainless caps that can rust and stain. These Marelon® chrome head thru-hulls are plated by the same company which provides exterior grade plated (chromed) plastic components used on parts made for such premium brands as Rolls Royce and Harley-Davidson. Now the look of chrome on a non-corrosive, zero electrolysis Marelon® fitting ideal for any application above or below the waterline. They only available on our Integrated Plumbing System mushroom head T-hulls for an all U.L. approved sea-cock system!
